READINESS & RESPONSE**

NEXT-GEN AND LEGACY PRODUCTS

In the new world economy of shrinking defense budgets for platform development, maintaining the mission readiness of heritage systems becomes critical, and life extension programs continue to proliferate. As this international market for aerospace parts and components grows, HEXADYNE Corporation grows with it; consistently adapting to provide our customers with a reliable, timely and cost-effective supply line. Our capability to fully support crucial logistics channels has been proven in the Far East for nearly a quarter century, and this success is being mirrored in markets worldwide. Let HEXADYNE assist in your business growth with the following services:

Proactive New Opportunity Pursuit
Embedded Overseas Marketing
Translation & Interpreter Support
ITAR Export Compliance
Delivery Management & Warehousing
In-house Quality Assurance & Control
